COMMENCING TOMORROW (MONDAY) AND CONTINUING EVERY DAY THIS WEEK.

As usual, we offer extraordinary Bargains in Toys, Dolls, Books, Fancy Goods, etc., during Opening Week; goods that are procured especially for this occasion, and cannot be duplicated hereafter.

The most interesting attraction will be on the Third Floor in the Toy Department, where we shall exhibit during the Opening a natural Bee-Hive, containing over 20,000 live bees, all under glass, showing the entire process of building cells and rearing honey.

Asch & Jaeckel's Celebrated Sealskin Garments.

For excellence of workmanship, perfection of style and fit, they are simply unequaled, as hundreds of ladies who have purchased these garments from us the past ten years can testify. No merely local furrier can possibly manufacture a garment to compare with them. For proof of this assertion all we ask is an inspection and comparison. Over two hundred different styles and qualities constantly in stock. Garments made to order in the highest style of the art.

Will "The Burlington's Number One" have other through cars from Chicago to Omaha and Denver? Yes, "The Burlington's Number One will have a full equipment of first-class coaches from Chicago to Omaha and Denver. Will passengers on "The Burlington's Number One" be annoyed any by switching, delays at stations, and other disagreeable features of traveling while en route from Chicago to Denver? No, "The Burlington's Number One" will be a solid through train, making only necessary stops, the service of which will be as near perfect as it is possible to make it. Can passengers going any other way than via "The Burlington's Number One" save one night en route from Chicago to Colorado? No, passengers cannot go any other way without being two nights on the road, save via "The Burlington's Number One." Will baggage be checked through to all points west by "The Burlington's Number One"? Yes, baggage will be checked through to all points west, including San Francisco and Pacific Coast points, not only on "The Burlington's Number One" but on all other through "Burlington Route" trains. Will "The Burlington's Number One" be a good train for California? Yes, "The Burlington's Number One" will be a good train to take for California, as it will make direct connection at Denver with the through fast train of the "Scenic Route"—The Denver & Rio Grande Railroad—for Colorado points and San Francisco. BISMARCK'S PRIVATE LIFE

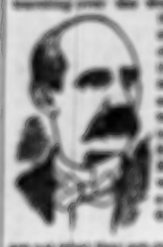
"THE BRIDE" A SUCCESS.

A TALK WITH ZELLAR.

THE NOTED DETECTIVE AND PUGILIST ON THE PROFESSION.

Some of the Stories Told of the Wonderful Feats of the Japanese and Their Imitators—An Explanation of the Remarkable Trick—A Human Ball on the Wrestler's Stomach—How He Ground Splinters to a Scientific Consistency.

A man who has spent nearly twenty years hunting over the world, and who has visited almost every city of importance on the civilized and semi-civilized globe as a professional explorer, will naturally be expected to have something of interest to say about such a man as Harry Zellar. "The wizard," who recently died in a sanitarium on the Grand Opera Grounds.



"I will not express an opinion as to what they are reached for in the world by Zellar as the owner of a club with a record like mine has.

"I have seen everything of note in the fighting business that India, China, and Japan can produce, and I have never seen the regular professional who could throw a ball of cards in the air, have a pack of cards and then to see each letter, and then stand up out of sight and pull the string up after him, and then go out of sight with a complete drill a point and brought the form to earth in diamond formation, which presently could applaud and reward a living, animated sub-agent—I call you, honestly, I never saw that trick."

"That is curious, too."

"Yes, for somebody has one of it. Certainly, between you and me, I don't believe it can be done. The fit out over a dozen or so I am a juggler in India do. I do admit the basket trick. The juggler stationed in the audience had to step away to act his trick, and would then be thrown a call on the part of the juggler as signal to perform the trick. He sometimes brought it off, but sometimes he failed. I have seen the juggler bring it off a dozen times in succession without a failure, and I have seen him fail a dozen times in succession. The trick is a humbug. I have seen the juggler
